

## Logic State Analyzer (LSA) Output Conversions

To save the display to a floppy do the following:

- a) Save the LSA display to disk, *e.g.*, Lab1.RAS.
- b) Copy the file to the LSA directory on the PC.
- c) In a DOS window, type the following:

```
RASTOGIF <RAS name> <GIF name>
```

where <RAS name> is the filename of the original LSA file and <GIF name> is the desired GIF filename. For example:

```
RASTOGIF Lab1.RAS Lab1.GIF
```
