

Create a Blog on a Google Site

- If you have not done so already, make a google account and log into the account
- Go to Google Sites, <https://sites.google.com/>
- Find the file icon with a + in it, . When you put your mouse over it, *New page (c)* will appear.
- Under “*Name your page:*” enter **Blog** (or something similar).
- Under “*Select a template to use (Learn more)*”, select the button and chose “*Announcements*”
- Select “Put page at top level”
- Then select “*Create*”
- You are now **DONE** with creating your blog. Now let us add some content.
- To add a post, just select the “*New post*” button
 - Give the blog item a heading
 - Add some blog content. You can paste pictures into the content window and also attach files.
 - Select the “*Save*” button (at the top right)
